

## Hyde County Cookbook Now Available for Purchase

The Hyde County Cooperative Extension has been working diligently on updating the Hyde County Cookbook, 4th Edition, since early winter, and we are so excited to announce it is now available for purchase!

Many of the previous recipes remained from the last Edition, while some were removed based on feedback from the Extension & Community Association and other community members. We are so grateful for all the new recipes that were submitted and added to this new revision.

The government building is still closed to the public. You will not be able to come to the office to pay for or pick up any orders. Some local retailers will have copies you can purchase at their locations while you are

completing other necessary errands.

There will be an option to purchase and ship with the additional cost of shipping added. **Cookbooks are still priced at just \$15** and can be purchased with cash or check.
