

Mattamuskeet Early College High School Students Get Lesson in Personal Finance

03/26/2019 - Last week, the Swan Quarter NC State Employees Credit Union partnered with Mattamuskeet Early College High School to provide our middle and high school students with some real life instruction in personal finance. This knowledge is hugely important to our students as they explore careers and make decisions about their futures.

As always, we thank our community partners! If you visit the NCSECU, please let them know how much we appreciate them taking this time for our students.

It is our goal to schedule this for the students at Ocracoke School in the fall.
