

Outage Notice

Cape Hatteras Electric Cooperative

will be energizing the new Mirlo Beach transmission line

Hatteras Island & Ocracoke Island

will experience a
brief outage after 10pm

Tuesday, November 11th
(Wednesday, November 12th in the event of rain)

There will also be a brief interruption in power at the conclusion of the work, which is expected to last throughout the night.

****Note that the Island will be served by limited diesel generators during this time. If the load exceeds the capacity of the generators you will experience more extended outages.**

If for any reason, your electric power does not return following the planned maintenance, please call **866-511-9862**.

CHEC apologizes for the inconvenience.
