About these workshops. . .

Each year, EPA provides RCAP and then Southeast RCAP wastewater education funding. Southeast RCAP uses their funding to present annual workshops on environmental topics of local interest and concern. Presenters typically include representatives from: NC DENR, local utilities, emergency management agencies, councils of government, USDA, equipment vendors, and Southeast RCAP.

A Great Networking Opportunity!

The workshop break and lunch periods will provide plenty of time for networking with fellow professionals. The information presented should be useful to operators, decision makers, managers, and consumers. Handouts of workshop presentations will be available. Come interact with your Utility neighbors and your State Regulators.

These are two half day workshops.
