**Greg Frank**

If past credit issues are preventing you from moving forward toward your financial goals, this workshop is a must. In today's economy, your FICO score is used for a lot more than just granting credit, so achieving and maintaining *Superior* credit is more important than ever. Unfortunately, many have very little understanding of how the credit system works. Learn the rules of the "credit game" so you can start playing to win! Topics include:

- **How your FICO score is determined**
- **How credit bureaus operate**
- **How to build and maintain positive credit**
- **How to deal with inaccurate and derogatory items on your report by asserting your rights under the Fair Credit Reporting Act**
- **Why paying off old collections will NOT improve your credit**

**You will leave with strategies you can implement immediately to dramatically improve your credit score in as little as 3 – 6 months!**

**Tuesday, April 16<sup>th</sup>, 2013**

**6:00 – 9:00 PM**

**Building 8, Room 828**

**Free!!**
