

North Carolina Coastal Federation

Working Together for a Healthy Coast

OCRACOKE - The N.C. Coastal Federation is holding a Community Stormwater Meeting on Ocracoke Island, November 21 at 1:30p.m to discuss stormwater concerns on the island. This meeting is open to the public and will be held at the Ocracoke Community Center located at 999 Irvin Garrish Highway. Public involvement is needed to determine historic drainage patterns on Ocracoke, priorities and water quality improvements for Silver Lake Harbor.

Typical Benefits of Stormwater Improvements

- Reduced degradation of roadways
- Increased pedestrian safety
- Better for business
- Improved water quality
- Reduced mosquito breeding grounds
