**Broadband Expansion Plan**

*Kris Cahoon Noble, County Manager,* reported in November, RiverStreet Networks presented to the Hyde County Board of Commissioners in regard to their work to expand internet connectivity across Hyde County. While we continue to work on the fixed wireless and television white space pilot program, the next step towards a truly connected county is to complete a comprehensive engineering plan for broadband expansion across all of Hyde County.

The benefits of having this plan will help the county be proactive:

- Establishes a goal and vision for the County (Blueprint)
- Identifies problem areas – providers/unserved areas
- Prepares county for partnership and economic development
- County will own a complete detailed engineering plan
- Establishes timeline, maps and estimated cost
- Most importantly – provides shovel ready design for grant/loan application preparedness

The total cost for this project is $80,000.00 and this is an eligible expenditure under the North Carolina Coronavirus Relief Fund (CRF). Hyde County has received $396,000.00 in CRF funding that must be spent for eligible expenditures as outlined by the North Carolina Pandemic Recovery Office and as established by the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”). All CARES Act funding must be expended by December 31, 2020.

Under NC General Statute 143-129(e)(6) Hyde County may contract with RiverStreet Networks as a sole source contract for professional service. The partnership with RiverStreet over the last 3 years and the pilot program has given RiverStreet the knowledge base needed to proceed and there is no other vendor that could supply this type of planning service with the technical knowledge of Hyde’s assets and geography and ability to complete the work.

Commissioner Randal Mathews recommends using the co-op option to give the county affordable internet service in Hyde County. This project is necessary in order to get the grants for the Broadband Expansion Plan.

IT Director Donnie Shumate explained the benefit of setting up a fixed wireless including a fiberoptic plan.
Commissioner Swindell moved to approve the expenditure of $80,000.00 for a broadband expansion and fixed wireless expansion plan; and, authorize the County Manager and County Attorney to negotiate and enter into a contract for the authorized amount. Commissioner Mathews seconded the motion. The motion passed on the following vote: Ayes – Pugh, Simmons, Swindell, Topping and Mathews; Nays – None; Absent or not voting – None.

**BUDGET REVISIONS** (none)

COVID-19 UPDATE

For immediate release
December 30, 2020

The active case count for positive COVID-19 cases as of 4:00 p.m. today is 118; total cases to date is 365; recovered 242; and deaths 5. Much research must go into death counts, so this number may change in time.

COVID-19 continues to increase. Today’s numbers have risen significantly due to another outbreak in the Hyde Correctional Facility. This outbreak, coupled with the community spread peaks explain the high number of cases. As mentioned in yesterday’s press release, this will continue.

NC DHHS has released a timeline for vaccination with the COVID-19 vaccine for individuals. Individuals 75 years of age and older, health care workers who were not included in phase 1a, plus frontline essential workers (defined below) will be the next wave of folks to get the vaccine, which is expected to start the week of January 4th based on vaccine availability. This group of folks is considered the Group 1b. Appointments must be made, and a press release and additional information will be posted throughout the community for procedures on how to get your vaccine. Frontline essential workers are:

- First responders (e.g., firefighters and police officers)
- Corrections officers
- Food and agricultural workers
- U.S. Postal Service workers
- Manufacturing workers
- Grocery store workers
- Public transit workers
- Education and child care workers (teachers, support staff, day care).

Other individuals will get vaccinations following Group 1b., but stay tuned for specifics as they roll out.

Testing continues to be a priority for those who have been exposed to the virus, or develop symptoms. Contact Hyde County Health Department 926-4399, Engelhard Medical Center 925-7000, or Ocracoke Health Center 928-1511 for appointments. For 24/7 on-call services, dial 1-866-462-3821, the Coronavirus Hotline.

Please provide a 4-5 sentence summary of your most recent Community Needs Assessment:

The Economic Improvement Council, Inc. utilized the grass-roots approach toward engaging the community-at-large in our ten (10) county service area to assess the needs therein. As a participant in the survey, individuals willingly shared their earnest opinions about the needs of their respective communities while highlighting its strengths. This in turn, reaffirmed that community resources and partnerships are vital toward helping families thrive.
The following is a list of needs as prioritized, with community input, through the needs assessment process.

1. Explain in detail how each of the following was involved in the planning and development of this strategic plan.

   a. Low-Income Community: The low-income community participated in communities and their local County Commissioners meetings to determine the priorities, needs, and resources that were available to assist them. The result of the meeting indicated that the Self-Sufficiency Project would be the number one priority for the Community Services Block Grant Program.

   b. Agency Staff: The Community Services Block Grant staff served as resource providers and facilitators during the planning progress. The staff did not influence the low-income families of their decisions. They offered suggestions and provided technical assistance as requested by the target communities and residents.

   c. Agency's Board Members: The Economic Improvement Council Board approved the Anti-Poverty planning process as presented by the Community Services Block Grant Director.

2. Describe how and what information was gathered from the following key sectors of the community in assessing needs and resources during the community assessment process and other times. These should ideally be from each county within your agency's service area:

   a. Community-based organizations
   b. Faith-Based Organizations
   c. Private Sector
   d. Public Sector
   e. Educational Sector

Our Community Needs Assessment was done through our Community Collaboration Partners, Agency Customers, and our Faith-Based Partners. Survey conversations were held with our Educational Partners and Leaders. The needs assessment provided an increased understanding of the needs in the community and why they existed. Community members have the opportunity to share how the need impacted their quality of life. The needs assessment further allows for strategic Planning, Priority, Setting, Program Outcomes and Improvements. The six most important needs in our communities based on our assessment are:

1. Employment
2. Housing
3. Affordable Child Care
4. Finances
5. Secondary Education
6. Safety

3. Describe your agency's method and criteria for identifying poverty causes including how the agency collected and analyzed qualitative and quantitative data in identifying those causes.
a. The agency's method of identifying poverty causes was through the Census Statistics, County Assessments, and the Poor Sectors Representation on the Economic Improvement Council (EIC) Board. The HHS Poverty Guidelines are also used to determine the enrollment of families into the Family Self-Sufficiency Program.

Identifying poverty varies among different groups and family conditions. The following is a list of poverty causes in our Northeastern area:

- Lack of Education
- Lack of Industrial Development
- High incidence of single family households
- Lack of job training and adequate skill development
- Lack of adequate public and private transportation
- High incidence of job lay off
- Health and Mental Health conditions
- Lack of cost of living increases

b. The methods and criteria used to determine priorities and strategies is through and application process which will include: income, employment skills, education, health, and resource availability.

4. Describe activities that your agency has undertaken to advocate for and empower low-income individuals and families to achieve economic independence and security.

EIC advocates and empowers low-income individuals to achieve a greater sense of authority over their lives through the Limited Opportunities to Family Self-Sufficiency Program. Family enrollment coupled with positive guidance will give individuals and families the opportunity to make lifelong decisions in determining their own lives and future. To achieve independence and security, families will identify their own strengths weakness. Case Managers will provide supportive services when needed and suggest ways to handle future challenges.

5. Describe how your agency plans to make more effective use of, coordinate and form partnerships with other organizations and programs including: State welfare reform efforts; public and private resources; religious organizations, charitable groups, and community organizations.

The Economic Improvement Council, Inc. will maintain a relationship with organizations serving low-income families and individuals. The agency’s Board of Directors solicits representation from the community organizations including religious and charitable groups to comprise the private sectors of the Board. The CSBG Case Managers will work with local churches, schools, teachers, health care, public housing organizations, community-based organizations, and job training agencies for welfare recipients to help move towards self-sufficiency.

- State Welfare Form: Maintain established rapport with Social Services
- Public and Private Resources: Attend meetings, provide and accept referrals and follow-ups.
- Religious Organizations: Extend notifications to churches and organizations on EIC Agency activities.
- Charitable Groups: EIC partners with Good360 a 501(c)3 non-profit charitable organization where access to product donations of quality goods from major
brands are accessible to our agency to assist in meeting the day-to-day needs of families in addition to helping during disaster-impacted communities. Further, our services are donated as needed.

- Community Organizations: Attend meetings, maintain rapport, establish new partnerships as new organizations arrive in our region, and maintain seats on various community boards.

6. Describe how your agency will establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals, to avoid the duplication of such services and to fill identified gaps in services, through the provision of information, referrals, case management and follow-up consultations.

EIC has a satellite office in each of the ten (10) counties. These offices are primarily “One Stop” Centers that provide information and services on all of EIC programs and all other programs in the surrounding area. Services provided through the satellite offices include: eligibility determination, referrals to other agencies to meet customer needs, and follow-up consultations. These satellite offices are shared by other agencies and programs to help fill in service gaps and prevent duplication of services. Additionally, they provide an incentive for other public and private agencies to utilize our offices for their information and referral activities.

7. Provide a description of how your agency will support innovative community and neighborhood-based initiatives related to the purposes of the Community Services Block Grant (fatherhood initiatives and other initiatives with the goal of strengthening families and encouraging effective parenting).

This mission and philosophy of the Economic Improvement Council, Inc. since inception is to assist families to become self-sufficient. The Self-Sufficiency Program as proposed is designed to support innovative community and neighborhood initiatives aimed toward removing barriers to self-sufficiency.

The Community Services Block Grant staff will support innovative community and neighborhood-based initiatives by promoting advertisement and serving as volunteers and encouraging community support. In the wake of the COVID-19 Pandemic, Center for Disease Control (CDC) Guidelines will be adhered to: The 3 W’s, Wear, Wait, and Wash to assist in slowing the spread of the virus when in-person support is provided. Another method the agency will utilize will be virtual platforms such as Zoom or Microsoft Teams.

8. Describe activities that your agency has undertaken or plans to undertake, on an emergency basis, for the provision of such supplies and services, nutritious foods and related services, as may be necessary to counteract conditions of starvation and malnutrition among low-income individuals.

The agency collaborates with food banks, churches and other organizations such as the Department of Social Services, local Head Start Programs, Food and Nutrition Programs and the Cooperative Extension Programs help with the conditions of starvation and malnutrition among low-income individuals. EIC Staff and Board Members currently occupy seats on other agency boards that provide nutritional assistance to low-income individuals.

Planning Process Narrative (continued)

9. Describe how your agency will coordinate the provision of employment and training activities with entities providing activities through statewide and local workforce investment systems under the Workforce Innovation and Opportunity Act. Provide the dollar amount of your allocation that will go towards employment training.

EIC will coordinate provision of employment and training activities through a job screening process. The agency will collaborate with other state and local employment agencies such as: temporary agencies, regional job fairs, colleges, universities, and other businesses to provide referrals for employment and training activities. Collaboratively, all agencies will promote the development and implementation to a more unified system of measuring accountability and performances. Funding in the amount of $1,250 annually will be utilized in support of these efforts.

10. Describe how your agency will ensure coordination with the emergency energy crisis intervention program under title XXVI (relating to low-income home energy assistance).

EIC has a well-established partnership and rapport with the county Department of Social Services. Other community partnering agencies such as: Catholic Social Ministries, The Salvation Army, United Way, and NC 2-1-1 serve as vital resources to mitigate emergency crisis intervention needs. The agency will make referrals to families and individuals that are in need of emergency services to an energy crisis intervention program. Through consistent coordination with the county Social Services and partnering agencies information will be disseminated to other departments.

11. Describe the needs of low-income youth and your agency’s efforts to promote increased community coordination and collaboration in meeting the needs of low-income youth.

The involvement of youth is an integral part of the fabric of EIC and the CSBG Programs. EIC plans and coordinates activities regularly with other programs and partnering agencies such as: the National Youth Sports Program, local schools, colleges and universities. The needs of our youth differs and largely reflects the needs of the greater community. Several needs have been identified are:

- Transient Families
- Family Isolation
- Lack of Recreational Facilities
- School Dropout Rate
- Child Abuse and Neglect
- High Delinquency Rate

EIC partners in collaboration with a multitude of public and private resources to combat the needs for youth.

- Public Schools
- Department of Social Services
- Albemarle Rehabilitation Center
- Albemarle Speech and Hearing
- Private Physicians
- Partnership for Children Centers
- Partnership for Children (Smart Start)
- Good360

To ensure coordination in meeting the above needs, the Council provides expertise and guidance in the development of youth programs and setting priorities for youth involvement.

12. Describe your agency’s method for informing custodial parents in single-parent families that participate in CSBG programming about the availability of child support services. In addition, describe your method for referring eligible parents to the child support office[s].

During the initial contact assessment custodial parents in single-parent families are made aware of the child support services. If a custodial parent participating in the CSBG Program is not receiving support benefits the Case Manager will inquire whether they are interested in applying and will provide agency contact information to complete an application.

13. Describe activities that your agency has undertaken or plans to undertake, to address the Department’s priorities which includes:

- Combat the Opioid Crisis by focusing on policies and practices that prevent opioid misuse, addiction and overdose;
  - EIC has representation serving on various boards or committees who address these challenges such as: Child Protection Teams, Housing Committees, and Social Services. Staff attend training to become a resource in our communities along with Law Enforcement and Emergency Medical Technician Staff.
- Develop better outcomes for Early Childhood learners to ensure that they are healthy, safe and nurtured, learning and ready to succeed;
  - EIC’s Head Start and Early Head Start has a Child Nutrition Program, takes pride in Continual Training on Safety, and Certified Staff to insure all aspects of health, safety, and an excellent learning environment.
  - In the midst of a global pandemic, Center for Disease Control (CDC) Guidelines are adhered to when in-person learning is engaged: Temperature checks and protective personal equipment is provided for staff and children. The practice of the “3 Ws, Wear, Wait, and Wash” assist in slowing the spread of the virus. Further, each facility is treated with “Last Germ” an EPA Registered (#82972-1), NSF Approved, Non-Toxic Hospital Grade, Deep Disinfection Service Kills 99.999% of viruses, bacteria and pathogens. The EPA has approved “Lastgers” use against SAR-CoV-2, the Corona Virus that causes the Corona Virus Disease 2019 (COVID-19).
- Expand NCCARE360, a statewide database that provides resource information for medical providers and human services professionals in response to social determinants of health like housing stability, food security, transportation access and interpersonal safety; and
  - EIC will continue to collaborate and participate in training sessions with the network team of professionals.
- Implement Healthy Opportunities that improve the health, safety and well-being of North Carolinians by addressing conditions in which people live that directly impacts health.
o In partnership with EJC's Section 8 Housing Choice Voucher Program and Weatherization Program instances mold and other hazardous conditions may be addressed to assist families to live a better quality of life.

Agency Strategy for Eliminating Poverty

Planning Period: 2021 - 2022

Section I: Identification of the Problem (use additional sheets if necessary)

1. Give the Poverty Cause name(s), rank the poverty cause(s) and identify which one(s) the agency will address.
   - The Poverty Cause Name: Limited Opportunities to Family Self-Sufficiency
   - The Economic Improvement Council, Inc. ranks Employment as the #1 Priority and Housing as #2.

2. Describe the poverty cause(s) in detail in the community with appropriate statistical data (include data sources).

   EMPLOYMENT PRIORITY I:

In Northeastern North Carolina, more than 20% of the population is living in poverty. A major problem of poverty within this area is that two-thirds of all poor people in the area have at least one family member working full-time. Recent surveys in the region support the fact that poverty remains high due to the high incidence of unemployment, low wage rate, and female heads of households.

The chart listed below provides a breakdown of labor force statistics of the ten (10) counties in the Northeast Region of North Carolina as reported by the North Carolina Department of Commerce – Labor and Economic Analysis Division, Local Area Unemployment Statistics.

The lack of job opportunities continues to be one of the most major causes of the high unemployment rate. Commuting to the Hampton Roads area of Virginia for employment continues to be high priority for area workers. The Northeastern part of the State has also experienced economic exclusion and underinvestment.
HOUSING PRIORITY II:

As stated in the aforementioned paragraph, the Northeastern Region of North Carolina represents more than 20% of the population is living in poverty. The rate and rank of unemployment on the statistical chart above establishes the bases of affordability of housing in the Economic Improvement Council, Inc.'s service area. Lack of adequate resources in housing and low-income households exceeds the affordable housing units available. In an article posted November 2020 by the North Carolina Housing Coalition 24% (330,144) represent renter households that are extremely low-income. The number of affordable and available rental homes per 100 extremely low-income renters is 43 with 70% of those homes severely cost burdened. One of six households are paying more than half of their income on housing and are considered severely cost burdened based on the unemployment rate. Lack of affordable housing units weighs heavily on the population of job ratio to housing.

(A) Explain why the problem exists.
Lack of Economic Resources: The northeast region is the poorest region in the State of North Carolina. Over eighty percent of the economy is based upon agriculture or farm related resources. The economy is driven by large mechanized farms that employ very few workers. Workers that are able to be employed are usually under-employed and seasonal workers.

Limited Economic Development: The region is slow to develop factories or other employment opportunities so support over 8,700 low-income families with over 25,000 low-income individuals. A large majority of this population are considered the working poor, underemployed or not working in the workforce.

Limited Job Opportunity: Considering the two above statements, adequate job opportunities continue to plague the region. The northeast region consists of only ten percent urban population. Much of this population consists of Pasquotank and Dare counties. Approximately forty percent of this population travels out of the region to Hampton Road (VA) for work in the tourist industry.

(B) Identify the segment of the population and give the number of people experiencing the problem.
According to the July 2019 U.S. Census Quick Facts Dashboard (see chart below) the northeast region is composed of approximately 174,964 citizens within the ten rural counties. Population estimates as of July 1, 2019 an average 13.24% are in poverty. The vast region and sparse population coupled with limited economic development causes the poor and near poor to be impacted by the problem.

(C) Provide demographic information of those adversely affected inclusive of:

(a) Gender
(b) Age
(c) Race/Ethnicity for the agency's service area

(D) Explain how the persons are adversely affected.
Persons residing in poverty conditions reside without a decent wage, which causes them to have to live in conditions such as substandard housing, lack of education, health insurance, child care and other necessities afforded to the non-poor.

Section II: Resource Analysis (use additional sheets if necessary)

(E) Resources Available:

a. Agency Resources: The Economic Improvement Council, Inc. – Section 8 Housing Voucher project currently operates in the ten county region with slots at a funding level annually is $7,250,926.00.

b. Community Resources: Four local housing authorities serve the municipalities of Elizabeth City, Hertford, Plymouth, and Edenton. These authorities have subsidized housing available for low-income.

(F) Resources Needed:

c. Agency Resources: The Economic Improvement Council, Inc. – More funding for HUD Housing to be able to pull more customers from the waiting list.

d. Community Resources: Affordable Fair Market Rent for those who are just right at the threshold of low and medium income.

Section III: Objective and Strategy

(G) Objective Statement: To enroll 55 low-income families in the Family Self-Sufficiency Program with five rising above the poverty guidelines by June 30, 2020.

Strategies for Objective: To qualify and employ comprehensive case management that would include community services providers such as: NC Works, Department of Social Services, and Base Entities.
OEO Form 210 (continued)

Section IV: Results Oriented Management and Accountability Cycle (use additional sheets if necessary)

Organizational Standard 4.3 requires that an agency's strategic plan and Community Action Plan document the continuous use of the ROMA cycle and use the services of a ROMA trainer.

(H) Community Needs Assessment: Please summarize the primary needs of your community as determined through the Community Needs Assessment, and explain which of those are Family, Agency, or Community Needs, and why.

The following is a list of needs as prioritized:
Family: Employment, Housing, and Secondary Education
Community: Safety
Agency: Affordable Childcare

(I) Achievement of Results and Evaluation: Please discuss your agency's achievement of results from last year. What were the successes and why were those areas successful? What areas did not meet targets or expectations and why were those areas not as successful? What Improvements or changes will be made for this year's work plan to achieve desired results and better meet the needs of the community?

The Economic Improvement Council, Inc. was successful in assisting 60% of its targeted customers to rise above the poverty level. The goal of gaining employment and better employment were met 100% with the success of 100% jobs with medical benefits obtained. The global COVID-19 pandemic posed its challenges supporting customers over the past year. This provided customers multiple resources for assistance in emergency situations. EIC provided support as requested in accordance to program guidelines whenever needed. In addition, education institutions were forced closed so customers were unable to meet their goals.

Flexibility in providing comprehensive case management through the pandemic has challenged us to explore greater ways to collaborate and meet the needs of our customers to assist them in meeting and / or exceeding their goals. Developing impactful partnerships during this time has streamlined our ability to better service our customers in any given situation. Strong emphasis will be placed on ensuring supportive services are rendered.

(J) Please name the ROMA trainer who provided services used in developing this community Action Plan and describe what specific services were provided.

Dr. Landon B. Mason, Sr., NCRT, CCAP, the ROMA trainer provided training and insight on the various areas of services dealing with Family, Community, and Agency. He highlighted the six National ROMA goals. Programmatic lead on Housing, Employment, Child Care, Safety, and Education in a combined effort to bring each service area together.

Community Services Block Grant Program
Fiscal Year 2021-22 Application for Funding
Monitoring, Assessment and Evaluation Plan

1. Describe the role and responsibilities of the following in the assessment and evaluation of agency programs.

   a. Board of Directors: The Board of Directors participates in the development, planning, implementation, and evaluation of the Community Services Block Grant program which serves the low-income community. The Board delegates the responsibility of the day-to-day operation of the agency to Executive Director who then assigns authority to the CSBG Director to operate and make sure the program is managed effectively. The Board of Directors receives reports periodically to ensure that the goals established are being properly implemented. They also make the necessary adjustments to redirect or modify the program when necessary.

   b. Low-Income Community: The low income community receives reports on a regular basis via local community organizations and the CSBG staff. The low-income community will have the opportunity to make suggestions regarding the implementation of the program. They are also given the opportunity to appear before the Board of Directors and express their concerns regarding the administering of the program and its evaluation.

   c. Program Participants: Through a chain of command, program participants may express their concerns regarding the CSBG Program. Participants may request to meet with the Executive Director of the Board of Directors. The agency will conduct surveys to assess the quality of the program as a means of involving participants and obtaining their opinion regarding CSBG standards and the quality of service being offered.

   d. Others: Other citizens of community groups may express concerns regarding the implementation of the CSBG Program by contacting the Executive Director. Any citizen not satisfied with the implementation of the program may appeal to the agency’s Board of Directors. These individuals can also express their concerns or ask for clarification regarding any and all program implementation standards.

2. Describe the systematic approach for collecting, analyzing and reporting customer satisfaction data to the Board of Directors.

   The Case Managers provided customers with a Salinification Survey form that was complete for quality services.

3. Describe how administrative policies and procedures are monitored by the Board of Directors.

   The Board of Directors are responsible for approving all modifications and / or final amendments to the administrative policies and procedures. Any recommendations for changes to the policies must be submitted to the Executive Director for approval. If approved, the Executive Director has the responsibility of presenting the changes to the Board for approval. Amendments to the policies will go into effect the following the Board’s approval or at a time specified by the Board. The Board consists of five committees: Executive, Personnel, Planning, Evaluation, Finance, and Special that are responsible for carrying out activities such as evaluating and monitoring the agency’s policies and procedures, programs and projects offered by the agency, and the fiscal operations of the agency.

4. Describe how the Board acts on monitoring, assessment and evaluation reports.

   The Board of Directors will receive monitoring, assessment, and evaluation reports during each regular meeting. The purpose of these reports will be to advise the Board if it project is meeting the targeted goals or if the project is encountering problems. The Board will suggest and recommend program adjustments to correct and necessary problems.
5. Describe the Board's procedure for conducting the agency self-evaluation.

The Board conducts self-evaluation utilizing three basic evaluation tools. These tools consist of Formative Evaluation, Quality Assurance, and Outcome Evaluation.

Formative Evaluation: This is done on a regular basis during official Board meetings. The operation and development of programs are measured based upon the progress of meeting and/or exceeding targeted goals, short and long term program achievements and expected outcomes. Financial information and participant data are compared to determine the level of achievement for each program. Programs that are not meeting the minimum achievement levels based upon time schedules are cited and recommendations for improvement are made.

Quality Assurance: the form of evaluation is used to determine if the process of involvement with low-income families is appropriate, timely and well documented. To accomplish this, the Board relies upon staff documentation, surveys and outside monitoring reports. Low-income families and individuals may also be allowed to appear before the Board to voice their concerns, problems or expectations.

Outcome Evaluation: This is achieved by employing the Result Oriented Management and Accountability cycle (ROMA). During this evaluation stage, data will be analyzed and compared to benchmarks that have been set in place. The outcomes will be used to determine the effectiveness of the program, update annual and long-range planning, support agency advocacy, funding, and community partnership activities.

6. Summarize the results of the Board's most recent self-evaluation. Describe how the information has been or will be used to develop the agency's next Strategy for Eliminating Poverty. Indicate the timeframe and planned activities for the next evaluation.

The Board’s most recent self-evaluation involved the Board reviewing a CSBG Quarterly Report and 2021 Year End Report. The following outcomes were presented:

- The number of participants served
- The number of low-income families rising above the poverty level
- The average change in annual income per participant
- The number of participants obtaining employment and/or better employment
- The number of participants obtaining jobs with medical benefits
- The number of participants average wage rate
- The number participants completing education/training programs
- The number of participants securing standard housing
- The number of participants provided emergency assistance

In an effort of eliminating poverty, after the Board has completed self-evaluation, the agency will draw from the strengths of those areas that proved to be effective and eliminate areas that proved to be weak and less effective.

The next time frame evaluation will begin July 1, 2022.

ORANGE COUNTY BOARD OF COMMISSIONERS
RESOLUTION IN SUPPORT OF REPARATIONS FOR BLACK/AFRICAN AMERICANS

WHEREAS, on December 6, 1865, the United States Congress ratified the 13th Amendment to the Constitution thus abolishing slavery in the United States, stating: “Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction”; and

WHEREAS, the 13th Amendment, along with subsequent Constitutional Amendments, civil rights legislation and voting rights acts have sought to recognize and establish equality for people of the Black African diaspora who had been unjustly enslaved and oppressed prior to and since the founding of the United States of America; and

WHEREAS, Black/African Americans nevertheless have been segregated, marginalized, disenfranchised, wrongfully incarcerated and lynched through intentional policies and practices including Jim Crow laws, racial terror and the exception clause in the 13th Amendment; and

WHEREAS, Black/African Americans have been denied equal access to education and skills development, healthcare, housing, mortgages, neighborhoods, job opportunities and advancement, government grant and loan programs for farms and businesses, and equal rights and equal protections under the law; and

WHEREAS, since the desegregation of schools, Black/African American students still are denied access to quality learning, are directed away from advanced courses, and face disciplinary actions at a disproportionate rate from white counterparts; and

WHEREAS, as evidenced in morbidity/mortality rates, Black/African Americans have worse health outcomes due to the effects of systemic racism including poor access to quality healthcare and access to health insurance, higher rates of poverty, increased likelihood of living in a polluted environment, more stress and sometimes biased treatment by medical professionals; and

WHEREAS, Black/African Americans have been and continue to be unjustly targeted, mistreated and abused by law enforcement and the criminal justice system; and

WHEREAS, systemic racism in America, which originated over 400 years ago and has evolved and persists to the present day, has manifested itself as a specific trauma within Black/African Americans and the Black experience, and has affected American society as a whole;

NOW THEREFORE BE IT RESOLVED, that the Orange County Board of County Commissioners, on behalf of the people of Orange County, affirms the dignity and humanity of all people, regardless of race, ethnicity, national origin, sexual orientation, gender, gender identity, gender expression, ability, religion or creed; and

BE IT RESOLVED, that Orange County apologizes for its role in the enslavement of Black/African American people, its enforcement of segregation, its promotion of prejudicial policies, and its implementation of discriminatory and detrimental practices and procedures; and
BE IT FURTHER RESOLVED, that the Orange County Board of Commissioners calls on the federal government to work toward the immediate enactment of the following policies and bills:

a. A program to provide reparations to the descendants of enslaved Africans sufficient to eliminate the racial wealth gap;
b. A program to provide a universal basic income to all citizens sufficient to meet each person’s basic needs;
c. A program to provide a guaranteed federal or federally-funded living-wage job to all citizens;
d. An increase in the federal minimum wage to $15/hr. or higher, with regular increases to account for increases in cost of living and inflation;
e. A program to provide universal health care;
f. H.R. 40, a bill to establish a federal Commission to Study and Develop Reparations for Black/African Americans.

BE IT FURTHER RESOLVED, that the Orange County Board of County Commissioners hereby is committed to working toward the elimination of racial bias and individual racism, the dismantling of institutional racism and the eradication of structural racism; and

BE IT FURTHER RESOLVED, that the Orange County Board of County Commissioners will support and augment the work of the One Orange Government Alliance on Race & Equity [GARE] Team; and

BE IT FURTHER RESOLVED, that the Orange County Board of County Commissioners will proceed to collaborate with schools boards, county departments, governmental agencies, private entities and financial institutions with the express purpose of investing in our Black/African American students and their families, investing in Black-owned farms and businesses, investing in Black/African American workers and investing in communities of color as first steps in providing long overdue reparations for the centuries of suffering, loss, anguish, injustice and trauma inflicted upon Black/African American women, men and children; and

BE IT MOREOVER RESOLVED, that the Orange County Board of County Commissioners shall forward this resolution to the Governor of North Carolina, the North Carolina General Assembly, the Orange County Delegation to the US House of Representatives, and the North Carolina Members of the United States Senate.

Signed this 7th day of December 2020.

Renee Price, Chair
Orange County Board of Commissioners
RESOLUTION #38-2020
REQUESTING THE NORTH CAROLINA GENERAL ASSEMBLY TO AMEND THE CURRENT TIER DESIGNATION SYSTEM IN NORTH CAROLINA UNDER G.S. § 143B-437.08

WHEREAS, the North Carolina Department of Commerce recently released county tier designations for 2021; and

WHEREAS, the tier designations for 22 counties were changed with Transylvania County moving to a less distressed tier ranking; and

WHEREAS, tier designations determine eligibility and guidelines for several different grant programs that N.C. Commerce administers including the One North Carolina Fund, building reuse, water and sewer infrastructure, and the downtown revitalization Main Street program and they play a role in the state’s performance-based Job Development Investment Grant (JDIG) program, serving as a mechanism to channel funds for infrastructure improvements into more economically distressed areas of the state as well as several programs that assist in economic development; and

WHEREAS, the Tier system was developed with the intent to prioritize state investments in economic development by prioritizing communities who have the most economic distress; and

WHEREAS, Transylvania County is concerned that the Tier system data points of population growth, unemployment rate, median household income and property tax valuation per capita do not provide accurate indicators of local economic health and wealth as indicated in the January 11, 2018 Presentation Measures of County Economic Well-Being and Local Revenue Capacity, to the Joint Legislative Economic Development and Global Engagement Oversight Committee; and

WHEREAS, Transylvania County recognizes that the median household income is not accurately reflective of the working wages of our citizens. The median household income is a completely different picture than average weekly wage. For average weekly wage in 2019, we ranked 80th of the 100 counties ranked highest to lowest. Our working population is struggling with low wages and high property tax valuations making housing challenging. The household income and property tax valuation factors being half of the ranking do not take into account that the wealth that is driving the median household income up and the cost of property is wealth primarily contingent on economic success elsewhere through pensions and investments. This means that our localized economy is very sensitive to market volatility and should mean more interest from the state in prioritizing economic development investment funds that would allow us to prosper in growing our local economy for long term stability; and
WHEREAS, tier designations are also an eligibility factor in GREAT grant funding and Needs-based Public School Building Capital Fund to fund public school capital needs; and

WHEREAS, changing Transylvania County’s tier designation reduces Transylvania County’s eligibility for many grant programs; and

WHEREAS, Transylvania County is of the firm opinion and belief that some of the areas within geographical boundaries of counties are more economically distressed with citizens experiencing economic distress than is reflected by the new tier designation; and

WHEREAS, Transylvania County is also of the firm opinion and belief that there should be alternative ways of designating county tiers that would provide an accurate economic picture as described in the NCGA presentation such as average annual working wages, multi-year poverty rates, 3 year employment growth, household wages in relation to housing costs and removing property valuation per capita and population total factors;

NOW THEREFORE, the Board of Commissioners of Transylvania County requests the North Carolina General Assembly to change the methodology prescribed by the North Carolina General Assembly in General Statute §143B-437.08 so that it more accurately reflects each county’s economic status. The Board also requests that the North Carolina General Assembly consider a stay for implantation of the Tier designations as announced for 2021.

Adopted this 14th day of December, 2020.

TRANSYLVANIA COUNTY BOARD OF COMMISSIONERS

Jason R. Chappell, Chairman

ATTEST:

Trisha M. Hogan, Clerk to the Board
RESOLUTION REQUESTING THE NORTH CAROLINA GENERAL ASSEMBLY TO AMEND THE CURRENT TIER DESIGNATION SYSTEM IN NORTH CAROLINA UNDER G.S. § 143B-437.08

WHEREAS, the North Carolina Department of Commerce recently released county tier designations for 2021; and

WHEREAS, the tier designations for 22 counties were changed with Polk County moving to a less distressed tier ranking; and

WHEREAS, tier designations determine eligibility and guidelines for several different grant programs that N.C. WHEREAS, changing Polk County’s tier designation reduces Polk County’s eligibility for many grant programs; and

WHEREAS, Polk County is of the firm opinion and belief that some of the areas within geographical boundaries of counties are more economically distressed than is reflected by the new tier designation; and

WHEREAS, Polk County is also of the firm opinion and belief that there should be alternative ways of designating county tiers that would take into account the needs of rural areas within county borders to create a more equitable system for distressed citizens.

NOW THEREFORE, the Board of Commissioners of Polk County request the North Carolina General Assembly to change the methodology prescribed by the North Carolina General Assembly in General Statue §143B-437.08 so that it more accurately reflects each county’s economic status.
