The Association has a project workshop approved by FEMA as well as state funding that will reimburse the cost of the repairs once completed. Tax Payment Plan Policy
County Manager Kris Cahoon Noble presented a tax payment plan policy meant to encourage all taxpayers to budget for their ad valorem taxes.

*Payment Plans will be the primary voluntary collection mechanism and a means to encourage all taxpayers to budget for their ad valorem taxes on a monthly basis. As such, these arrangements can be highly individualized to account for income flow and manageability. This payment plan policy allows formal agreements to be entered at any point. Also, the agreements will require the taxpayer to consent to automatic bank drafts that will occur around the 5th day or the 20th of each month until the debt is paid in full. In an effort to encourage taxpayers to exercise their option to enter into a formal payment plan as early as possible, a standard amortization schedule will be printed on each tax bill and detachable so the taxpayer can express their intent to enter the agreement. A voided check will be required or the taxpayer would need to provide banking information by some other means, so bank drafts can be created. The standard term will divide the principal into equal monthly payments with a payoff in December or January to avoid the accrual of interest. If the taxpayer needs additional time to fulfill the debt, then the payment schedule can be extended through June of the current taxing year and interest will be added to the payments over the term of the arrangement. Additionally, if the taxpayer enters
a payment plan late in the payment period or once the debt has become delinquent, then the taxpayer will have the option to include the next taxing year and prepayments would be applied until the tax becomes due. Any request to deviate from the standard payment schedule would require the taxpayer to contact the Hyde County Tax Office directly to negotiate the individualized plan. If a taxpayer defaults twice after entering a formal agreement, the arrangement would be deemed void and the taxes would be placed in enforced collections.

Commissioner Swindell moved to approve the Tax Payment Plan Policy as presented. Commissioner Pahl seconded the motion. The motion passed on the following vote: Ayes – Fugh, Pahl, Swindell and Topping; Nays – None; Absent or not voting – Simmons.

HYDE COUNTY
RESOLUTION OPPOSING HOUSE BILL 483

WHEREAS, the North Carolina House of Representatives voted to pass NC House Bill 483, with a short title: Let Them Spawn;

WHEREAS, the bill proposes an act to require that Fishery Management Plans must include a minimum size limit for spot, Atlantic croaker, kingfish, striped mullet, southern flounder, and bluefish, to ensure that 75% of the juvenile fish at the minimum size limit established for the species have reached the size of maturity and have had an opportunity to spawn at least once;

WHEREAS, the bill further proposes the Marine Fisheries Commission would be required to adopt rules to implement the act and while the revised FMPs are being developed, the Division of Marine Fisheries and Marine Fisheries Commission would establish temporary management measures for the minimum size limits required by the act;

WHEREAS, “Let Them Spawn”, was written to intentionally sound harmless and appear to protect fish and North Carolina’s fisheries in order to persuade legislators to adopt these guidelines without full analysis of the negative effects the implementation of this bill will have on the commercial and recreational fishing industries in our state;

WHEREAS, NC House Bill 483 was rushed through the NC House of Representatives with little opportunity for public comment from our coastal counties, communities and constituencies, giving no time for interested parties to provide input to their legislators or consult relevant data in order to make sound decisions;

WHEREAS, the process required under the Fisheries Reform Act of 1997 which requires the N.C. Division of Marine Fisheries to prepare Fisheries Management Plans for adoption by the NC Marine Fisheries Commission for all commercially and recreationally significant species or fisheries that comprise state marine or estuarine resources was not followed;

WHEREAS, little or no scientific data in regard to fisheries management or unintended economic consequences were considered in the drafting of this bill and therefore can not affirmatively ensure the long-term viability of the State’s commercially and recreationally significant species or fisheries;
WHEREAS, changes to a natural resources' regulatory process and changes to fisheries laws, can have significant and unintended negative consequences on the economic and social well-being of small rural communities already struggling in today's societal and economic climate;

WHEREAS, House Bill 483 does not take into consideration other effects on the fisheries including, but not limited to, natural variations in fishery stocks, ecological and environmental changes, weather events, management strategies, changes in effort, or changes in the socioeconomics of individual fisheries;

WHEREAS, House Bill 483 would change North Carolina fisheries policy and would cripple the NC shrimping industry leading to a substantial reduction in the supply of local, wild-caught shrimp;

WHEREAS, Hyde County is a tier one economically distressed coastal county that is heavily dependent on both commercial and recreational fishing to support the economies and communities within;

WHEREAS, Hyde County ranked third in the state in ex-vessel value of commercial landings in an amount of $12,811,250 and the port of Engelhard ranked third in the state in ex-vessel value of commercial landings in an amount of $7,611,885 in 2017;

WHEREAS, Ocracoke Island's economy is contingent upon successful commercial and recreational fishing and the tourist economy all of which will be harmed by the passing of HB 483;

WHEREAS, House Bill 483 directly endangers the economic viability of Hyde County and other coastal counties without scientific data to support that the proposed changes within the bill will provide the greatest overall benefit to the State, will produce sustainable harvests, or end overfishing;

NOW THEREFORE, LET IT BE RESOLVED, that the Hyde County Board of County Commissioners requests that the North Carolina Senate reject House Bill 483;

AND LET IT FURTHER BE RESOLVED that the North Carolina Division of Marine Fisheries be allowed the opportunity to further study the issue and make any amendments or modifications to existing regulations through the comprehensive fisheries management plan process taking into account public input, potential economic and socioeconomic impacts, and potential impacts to other fisheries and other industries.
